

## WHEATON OCCUPIES PEREZ DASMARINAS

Bivouacked in the Field  
Last Night.

FINDS SANITARY CONDITION  
OF THE CITY IS BAD.

Under the Circumstances the General  
Decides it Would Be a Dangerous  
Garrison Place—Forces Will Push  
on Tomorrow to Buena Vista, Sup-  
posed to Be the Site of the Rebel  
Powder Mills.—Gen. Miles in an In-  
terview Declares the Philippine Sit-  
uation is Serious.

Manila, June 20.—[Special]—General  
Wheaton, who bivouacked in field last  
night, advanced on Perez, Dasmariñas,  
early this morning.

The advance was contested by the  
rebels, but after moderately heavy fight-  
ing, the Americans occupied the city.

General Wheaton immediately exam-  
ined the city's sanitation, which he de-  
cided was so bad as to make it a danger-  
ous garrison place.

Wheaton's forces will push on tomor-  
row to Buena Vista, which is supposed  
to be the site of the rebel powder mills.

Philippine Situation Serious.

New York, June 20.—[Special]—In  
an interview here Gen. Miles declared  
that the Philippine situation was seri-  
ous.

He does not believe the question of  
calling for volunteers has been decided.

Otis' Report of Casualties.

Washington, June 20.—[Special]—  
Gen. Otis informed the war department  
this morning that five Americans were  
killed and twenty-three wounded in yes-  
terday's battle.

He says the enemy left over one hun-  
dred on the field.

Imus, June 20 (via Manila).—Gen.  
Wheaton is advancing into the village  
of Perezdasmariñas. The insurgents  
are flying before the American forces.  
Last evening the out troops drove the  
insurgents from the position from  
which the attack was made yesterday.  
The men rested for the night after the  
battle and this morning the advance  
was begun early, under Gen. Wheaton's  
leadership.

Americans Fight Desperately.

Members of the First battalion of the  
Fourth infantry fought for their lives  
yesterday. The 300 Americans who  
form Major Bubb's command found  
themselves almost surrounded by 1,000  
Filipinos when fully six miles from re-  
inforcements. In order to make the  
annihilation of the Americans more  
certain, the insurgent sent 1,000 more  
Filipinos to make a flank movement  
on the left of Major Bubb's little band.

The battle began at noon yesterday  
near Perezdasmariñas, about six miles  
south of Imus, which was the American  
base. Major Bubb with the First bat-  
talion of the Fourth infantry and  
Lieut. Koepfer with one piece of artil-  
lery had been sent from Imus to take  
possession of Perezdasmariñas.

Mixed by the "Friendlies."

The American officers had received  
reports that the enemy had deserted  
the village. The alcalde of the town  
came to Imus, formally surrendered  
the town and urged that a force be  
sent there to prevent the insurgents  
from looting it. As Major Bubb's men  
advanced they noticed that the houses  
along the roadside were filled with  
amigos (friendlies), who pretended to  
welcome them.

Surrounded by the Enemy.

The battalion advanced confidently  
until within three-quarters of a mile  
of Perezdasmariñas, when Major Bubb  
discovered that the enemy was paral-  
leling the road for a long distance on  
both sides of the battalion. The Amer-  
icans were practically surrounded.  
When they had reached a place in the  
roadway sunk beneath the rest of the  
country the insurgents opened fire.  
Their volleys were augmented by the  
insurgents hidden in the houses along  
the road, who poured a murderous fire  
into the rear of our troops.

Major Bubb's men immediately went  
into action, and while engaging the  
force to the right side of the road an-  
other appeared on their left. They  
received with cheers the news that  
they were being flanked, and a part of  
the battalion turned upon the enemy  
in the new direction and met the at-  
tack with steady volleys.

Terrible Fire from the Insurgents.

The fight began at noon. The en-  
emy's fire was silenced by the Amer-  
icans in an hour. Major Bubb in re-  
tiring discovered that he had been sur-  
rounded. He sent skirmish lines  
which crowded the Filipinos back to-  
ward Imus. The outflankers were  
under a fire from both the right and  
the left. The rear guard was fighting  
desperately to hold the enemy's rushes  
in check. There was an incessant and  
galling fire down the main road. Men  
were falling everywhere. The am-  
bulance was filled with the wounded.  
Carts were pressed into the service,  
loaded with the wounded and dead and

dragged by prisoners whom our troops  
had captured.

Gen. Wheaton to the Rescue.

At 3 o'clock it looked as if nothing  
could save the battalion. Our men had  
been forced to leave two of our dead  
behind. At 4 they had pressed the  
enemy off to the right, and were at last  
behind them. Fifteen minutes later  
Capt. Hazard, an aid of Gen. Wheat-  
on's, pushed through alone with the  
news that Wheaton was coming to the  
relief. The men cheered wildly, and  
went for the Filipinos again.

Mowed Down the Rebels.

When Gen. Wheaton arrived he  
found the enemy, 1,000 strong, moving  
to intercept the full column runs at  
right angles to that leading to Imus.  
He opened with shrapnel and mowed  
down the insurgents until the left wing  
of our troops was cleared of the enemy.  
Then he advanced rapidly, and at 4:30  
o'clock yesterday afternoon had the en-  
emy in full rout.

Rebels Forced to Retreat.

The insurgents fought desperately.  
Finally, after an hour's constant fire-  
ing, they began slowly to retreat. The  
Americans followed up their advan-  
tage, giving the Filipinos fearful pun-  
ishment.

Natives in white clothes were cap-  
tured by Fourth infantry men with  
their guns in their hands. This clearly  
proves the whole movement was a  
scheme by which the insurgents hoped  
to wipe out the small American force.

It might have succeeded but for the  
marvelous courage of the troops and  
officers.

The regiment bivouacked last night  
in the ricefields. Food and ammuni-  
tion were rushed forward to them.

It was the most determined and best  
planned resistance yet made by the  
Filipinos.

Gen. Wheaton's Statement.

Gen. Wheaton made the following  
statement:

"I am glad to say that in to-day's  
reconnaissance by the 4th infantry, who  
held back 2,000 insurgents three hours,  
our troops acted gallantly and with the  
courage and coolness of veterans. Major  
Budd, the commanding officer, and  
every other officer in the field,  
should receive congratulations for hero-  
ism. The manner in which they  
handled a handful of men against an  
overwhelming force of the enemy was  
a movement which averted a contem-  
plated attack on Imus by the entire  
Filipino army in Cavite province."

MANY REGIMENTS ARE OFFERED.

President Will Not Call Volunteers Un-  
less Otis Asks for Them.

Washington, June 20.—Nearly every  
governor in the United States has of-  
fered from one to half a dozen reg-  
iments to the president for the Philip-  
pine campaign. It has been made clear  
to the president that he can obtain  
without effort the full 35,000 volunteers  
provided in the new army bill if he  
shall determine to call for them. But  
Gen. Otis still holds to his estimate  
that 30,000 men are enough for the  
Philippine campaign, and the president  
has no intention of calling for volun-  
teers while the commanding gen-  
eral says he does not need them.

Should it become necessary to call  
for volunteers it is not the present plan  
of the president to call for or accept  
state organizations. His plan has been  
and still is to create organizations  
which will not bear state names or be  
made up wholly from one locality. The  
law authorizes him to enlist 35,000 volun-  
teers in the same way that the rough  
riders and the immune regiments were  
enlisted for the war with Spain. They  
will, if created, be known as United  
States volunteer regiments, without  
the name of any state attached.

Troops for the Philippines.

Washington, June 20.—The war de-  
partment is making extensive prepara-  
tions to transport reinforcements to

ment has chartered several new vessels  
for this duty, and it is estimated that  
by the 1st of September 10,000 regular  
soldiers will have reached the Philip-  
pines.

who served in Admiral Dewey's fleet at

regardless of rank or station, is to re-  
ceive a medal commemorating the glo-  
rious victory. In all, these medals num-  
ber 1,825.

War Preparations at Cape Town—Al-  
leged Plans of the Boers.

correspondent of the Daily Mail says:  
"The government has forwarded a  
battery of heavy guns from Kimberley

imperial command and munitions of  
war are being sent northward in large  
quantities."

the Mint Roberts has announced his  
final estimate of the production of gold  
and silver in the United States for the  
calendar year 1898 as follows: Gold,  
\$64,463,000; silver, 54,438,000 fine  
ounces. In 1897 the production was:  
Gold, \$57,338,000; silver, 53,860,000 fine  
ounces. The commercial value of sil-  
ver bullion for 1898 was 59 cents per  
fine ounce, while for 1897 it was 60  
cents.

chances of being convicted on the trial  
and getting a life sentence. He was

Drowned At Hooker Lake.

Kenosha, Wis., June 20.—William  
Borkenhagen was drowned yesterday at  
Hooker Lake. He had gone out the  
night before with a party, and early yes-  
terday morning went out for a bath.  
His boat was capsized, but little fear  
was felt by his companions, who believed  
him to be a good swimmer. He tried  
to reach the boat, but the wind blew it  
out of his reach, and before help could  
reach him he sank. The body has not  
been recovered.

Borkenhagen was well known in  
Kenosha. He was twenty-two years old  
and the youngest son of William Bork-  
enhagen, formerly foreman of the Main

build the line in a substantial manner  
and commence work on two new ports  
to be created at Zalina Cruz, on the  
Pacific side, and at Coatocalcos, on the  
gulf coast. This work is of great com-

trade in international freight.

Administration Officials That the  
Labors Had Better Be Dropped.

Several days ago the industrial com-

from trusts trail the commission were  
simply obeying orders.

Word was passed among the commis-  
sioners by the administration officials  
that they had better drop trust investi-  
gations.

The prediction is made today that the  
matter will not be taken up again.

treaty. The concessions to be granted

mine what articles are to be covered  
in the concessions to France.

Yielding to Pressure.

Berlin, June 20.—The Berliner Tage-

Zorn's instructions involve a conces-  
sion regarding the arbitration question,  
due to the great earnestness with  
which the British, American and Rus-  
sian delegates are pushing the appli-  
cation of the principle. Government  
circles, from political motives, desire  
some positive result, if there can be an

not harm German interests.

of the railway blew open the safe, se-  
curing \$4,000, the company's receipts  
for two days.

The entire city detective force is on  
the case, but the cracksmen left no  
clue.

Horses Shod with Straw.

In Japan most of the horses are shod

ordinary rice straw, braided so as to  
form a sole for the foot about half an

An immense sun-dial, certainly the  
largest in the world, is at Hayon

## CLINTON STUDENTS RECEIVE DIPLOMAS

COMMENCEMENT EXERCISES  
HELD FRIDAY EVENING.

Baptist Church Crowded to Its Doors—  
Baccalaureate Sermon Preached By  
Rev. Wm. Moore—Salary of Post-  
master Raised \$500—Spicy Brieflets  
and Personal News.

Clinton, June 20.—A large and enthusiastic audience assembled at the Baptist church last Friday evening, the occasion being the graduating exercises of the Clinton high school. Practically every seat was filled at an early hour and when 8 o'clock arrived only standing room could be obtained near the doors. The interior of the building presented a very attractive appearance, the decorations having been arranged with much care and good taste. At the rear of the platform a solid mass of green foliage filled an archway save where class year "99" gleamed forth, the figures being composed of green colored electric lamps. Above the arch and painted in a semi-circle on a back ground of diverging sun rays was the class motto, "Honor Wait's at Labor's Gate." On the floor at the front of the stage rested a mass of pink flowers and on one side an electric fan merrily hummed while in the blast of cool air it set forth streamed the class colors "ashes of roses and green." Aside from the lights proper eighty-four colored and white electric lamps were arranged in festoons from the ceiling and over the arch. The board and those connected with the school feel greatly indebted to our gentlemen electricians, Ayer Bros., as it was due to their courtesy that these lights were provided for the occasion. Choice varieties of palms and ferns in jardinières made the decorations complete. Harden's orchestra had been engaged for the occasion and when the first number on the program was finished the graduating class filed in and took their places. Seats of honor were also provided on the platform for the teachers, members of the school board, the clergy and the county superintendent of schools. Each member of the class was provided with privileged tickets which they bestowed on friends or members of their family and this pastebord passed the holder to a reserved seat in the body of the house. The ushers of the evening were high school girls, prettily dressed in white. At the close of the program Prof. E. E. Loveland, principal of the schools, made a short address in connection with the presentation of diplomas, in which he complimented the class with much feeling and sincerity. The vocal selection given by Miss Ames pleased the audience so much that she was promptly called back and she then sang of a pathetic battle field incident. The orchestra received much hearty applause, its closing selection being warmly endorsed. The following is the program as given:

Music.....Harden's Harp Orchestra  
Invocation.....Rev. W. P. Look  
Salutatory.....Flora M. Edwards

## PRESIDENT MCKINLEY

USES TOO MUCH TOBACCO

According to a writer in the Boston Globe President McKinley's trip to Hot Springs, Va., was taken for the purpose of getting rid of nicotine. This writer goes on to say: "No man of prominence in American life since Gen. Grant has been so industrious a cigar smoker as Mr. McKinley. He smoked all day long. MILLIONS OF MEN smoke ten to twenty cigars a day without any bad effect. Some tobacco contain too much nicotine, hence that dull feeling after smoking. The 'J. K.' Cigars are made from the finest selected and cured remedious tobacco. Contains less nicotine (tobacco poison) than any tobacco grown. It is a mild, free smoke, rich in aroma, equal to most ten-cent cigars and better than any half-dime cigar made. At druggists and cigar dealers."

SMOTHERED BY HOT AIR.

We are sorry that the Milwaukee Journal is to be compelled to suspend publication, and that the people of the state are to lose one of the best newspapers published in the northwest. But it cannot be helped. The Journal's course calls down the wrath of The Janesville Recorder, and that settles it. The Journal will have to suspend. It cannot live unless it is by the grace of the great and good Simon-pure "only-democratic-daily-in-the-First-Congressional-district" (excepting half a dozen others), and if The Recorder abandons it to its fate, it is sure death. Good bye, dear Journal! You have done the best you could, and we are sorry that The Recorder felt compelled to blight your life in the hour of its greatest usefulness! But the words have gone forth and we cannot stem the hand of the ruthless destroyer! May peace be yours, and may your ashes never be scattered to the seven winds by the cyclones raised by political barkeepers, and would be bosses, who rule not, though they spin and spin eternally.

SPANISH FINANCING.

When the Spanish government wants money it proceeds to raise it, and there are no complaints made about taxes, either. It is now semi-officially announced that the Spanish minister of finance, Senor Villaverde, has established the equilibrium of the budget. It is understood that a tax of 20 per cent. will be imposed on internal rents and that as regards the external debt the July coupons will be paid in full, but the government will ask the cortes for authority to negotiate with the foreign bondholders with the view of obtaining a reduction in the rate of interest.

As a judge, B. F. Dunwiddie will show the same traits of character that he has shown as a lawyer—honesty, fairness, and industry. The appointment to the office of circuit judge is indeed a high honor, but it is none too high to be well bestowed upon Mr. Dunwiddie.

Constant Reader—Not wholly. When canards, lies, rhorobacks, and sensational speculations are sent out, they are always "semi-officially announced." The expression has no other significance, but is simply the label placed upon the goods.

The Filipinos have probably heard of the remark of the civil war veteran who said that all the soldiers at Bull Run who failed to take to their heels "are there yet." Aguinaldo's men evidently realize that they are in much the same boat.

The Milwaukee common council will enact an ordinance to regulate the storing and handling of calcium carbide, from which acetylene gas is made, to guard against fires resulting from its presence in buildings.

One Eau Claire minister says the New Richmond cyclone was the work of God, while another says the devil was responsible. In the face of this conflicting testimony, what are we weak lay men to do?

Judge Dunwiddie's friends rendered him valiant service, but if Judge Dunwiddie has not been a man to whom valiant service should be rendered, no valiant services would have been rendered him. See?

The Milwaukee Evening Wisconsin suggests that "those who think that Andree may still be alive might also exercise their guessing powers as to the prospect of democratic success in 1900."

The people of Janesville are to be congratulated on the fact that Prof. D. D. Mayne has been re-elected superintendent of the public schools. He is the right man in the right place.

A Record for Baptizing.

Rev. Tucker Wilson, pastor of a Baptist church in Muncie, Ind., has established a new record, having immersed 87 newly converted members of his flock in 27 minutes, or at a rate greater than three a minute, and that without any assistance.

REV. LEWIS OPENED MEETING AT MILTON

GREAT DAY AT SEVENTH-DAY BAPTIST ASSOCIATION.

Funeral of James Home Took Place Sunday—Extracts of Letter From New Richmond—Bower City Base Ball Team Defeated—Edward B. Saunders Accepts Call East.

THE GAZETTE AGENCY  
W. W. CLARK, Manager,  
Milton, Wis., June 20, 1899.

Saturday was the great day at the Seventh Day Baptist Association as to attendance and interest. The program of exercises opened with a sermon by Rev. A. H. Lewis, D. D., editor of the Sabbath Recorder, of Plainfield, N. J. Dr. Lewis is the finest pulpit orator in the denomination and a logical, cultivated thinker, consequently the desire to hear him was not confined to his own people. The sermon was followed by the Sabbath school, conducted by Prof. Edwin Shaw. The afternoon session consisted of a prayer and song service and a sermon by Rev. Theo. L. Gardner, of Salem, W. Va. In the evening there was a Praise service conducted by E. B. Saunders, followed by a sermon by Rev. George B. Shaw, of New York City. Sunday forenoon a business session was held and a sermon was preached by Rev. L. R. Swinney, of De Ruyter, N. Y. This was followed by the Tract Society Hour in charge of Dr. Lewis. Business, the Y. P. S. C. E. Hour, with Miss Lura Burdick in charge, and a sermon by Rev. Stephen Burdick, of Andover, N. Y., occupied the afternoon, and in the evening Rev. G. W. Hille, of Nortonville, Kan., took charge of the devotional service, and the sessions closed with the ordination of E. B. Saunders to the gospel ministry. The examination of the candidate was conducted by Rev. L. R. Swinney, of De Ruyter, N. Y. President Whitford offered the consecrating prayer; Dr. A. H. Lewis, of Plainfield, N. J., gave the charge to the candidate and the welcome, and the right hand of fellowship was extended by Rev. S. Burdick, of Andover, N. Y. The funeral of James Home, who died Thursday evening at the Palmer Memorial hospital, took place Sunday afternoon, Rev. A. L. McClelland officiating, and the burial was made here. Deceased had been taking treatment at the Palmer hospital for several years, and his death was sudden and unexpected. His brothers, William and John, of Milwaukee, were in attendance at the funeral, but three other brothers, Peter, Edward and Robert, at Tacoma, Wash., and Bessemer, Mich., and his sister, Lizzie, now at Tacoma, were unable to be present. Theo. B. Davis, a former student, is in town this week.

We are permitted to take the following extracts from a letter written by Mrs. Minnie Sweet-Smith, of New Richmond, well known to many of our citizens, to her grandmother, Mrs. Caroline Sweet, of this village. Mrs. Smith says: "We are alive and well, but working hard for others. We got home to the farm about ten minutes before the wind blew. Left the building that blew down in the rain and got home just in time to be out of the worst of it. All five of our houses in town were blown to pieces. Wesley has worked there every day so far for those that needed help and day before yesterday hauled five loads of burial caskets. They do not think all of the bodies have been found yet. The rear of the storm was fearful here, but the only damage was hay shed doors and some trees blown down. Those here who have seen other tornadoes say they never saw anything like it. Buildings are in kindling wood, and no walls left. So many have neither home, friends or anything left, but it is wonderful how most all towns about here have sent relief in provisions, clothes and money."

When Bro. Cunningham, manager of the Y. M. C. A. base ball club of Janesville, saw Crumb in that city and inquired if the Milton boys would play his nine Crumb said "Bring 'em up and we'll give them a good practice." Crumb is a truthful individual ordinarily but on that occasion his veracity wandered a trifle for the home team out-classed the visitors so much that the latter got mighty little practice. When the carry-all unloaded the Janesville aggregation, including the colored gentleman, who by the way, is a ball player if his associates are not, timid Miltonians said, "Its all off, they are too big for our kids." The home nine had decided among themselves to let the visitors win the game as it had been many years since the Bower City had won out on Milton's ball field, but the way the visiting professionals fell over themselves obliged our boys to win by a score of 13 to 7, despite the fact that Milton put up the poorest game of the season, with errors galore. We admit that it's a little rough on a city of fifteen thousand inhabitants to play a professional team, including such curvers as Fisher and Blakely, against an amateur nine in a country village and have their hired men knocked out to the tune of two to one. The "Snipe Hill" team can give that nine practice and pointers right at home, Brother Cunningham, and it is not necessary to drive eight miles for that purpose. Never mind, you Y. M. C. A. people, the Milton nine will go to Janesville, and you can put in Calkins, McManis, and the rest of the Beloit college and U. W. outfits, and there'll be a possibility of your winning a game from the "Jays."

Edward B. Saunders has accepted the call to the pastorate of the Shiloh, New Jersey, Seventh-day Baptist church. He will move his family there next month. This is the second largest church in that denomination. Prof. Shaw spent Sunday at Mendota with his brother Dighton, at the insane

hospital. His visit some days since seemed to have a good effect and he decided to repeat it.

Prof. S. Summers and wife of Monticello, are here to spend the summer. Stephen Relyea, well known here, is now holding down a good position at Storm Lake, Iowa, and expects to be admitted to the bar of that state next year.

Hon. Thos. Zinn, the only Seventh-day Baptist member of the Illinois legislature and a republican from a democratic district, has been in town several days.

The Johanson brothers started this week for their old home at Dell Rapids, South Dakota. They expect to make the journey on their wheels, and return the same way later in the season.

Mort Coon has a new rubber tired wheel chair that is a dandy, and he deserves it. He can now get about town nicely.

The concert of the School of Music in Milton College, under the direction of J. M. Stillman, mus. doc., will be given on the 28th of June.

More Precious Than Diamonds.  
Among the rarest of precious stones the green garnet is probably the most valuable. This gem is of a superb, rich shade, far more brilliant than that of the emerald. A green garnet easily commands double the price of a pure diamond of equal size, because it is so exceedingly rare, while red garnets are so common that their cost is trifling.

World's Largest Cemetery.  
At Rockwood, Australia, is the largest cemetery in the world. It covers 2,000 acres. Only a plot of 200 acres has been used thus far, in which 100,000 persons of all nationalities have been buried.

African Brooklyn.  
In the first four weeks after the opening of the electric railway at Cairo it is said that no less than 30 persons were killed. Even now the death roll averages about four persons a week.

DRINK GRAIN-O

after you have concluded that you ought not to drink coffee. It is not a medicine, but doctor orders it because it is healthful, invigorating and appetizing. It is made from pure grain, and has that rich, soft brown color and taste like the finest grades of coffee and costs about 1/4 as much. Children like it and thrive on it because it is a genuine food drink containing caffeine but no stimulant. Ask your grocer for Grain-O, the new food drink, 35 and 25c.

# PLUCKY WOMAN WAR CORRESPONDENT

Eliza Archard Conner, Who Is  
Carrying a Typewriter  
Around the World.

BY BESSIE DOW BATES.

Some of the most interesting articles which have been printed about the war in the Philippines have been written by Eliza Archard Conner, one of the very few women war correspondents who have ever entered this supposedly masculine field of journalism. But Eliza Archard Conner has always claimed that women were the equals of men in any field of work, and many times before has she demonstrated the truth of her theory.

The name of this veteran newspaper woman is known from one end of the country to the other, for here has been an active life. She has been prominent also in the ranks of the woman suffragists and as one of the leading members of Sorosis.

For more than a year Mrs. Conner has been on a roving mission which has taken her almost to the ends of the earth. Some 15 months ago she started for the Klondike. She took with her a typewriter. With her writing machine she is at home anywhere she may happen to find herself.

From Dawson City she sent a series of correspondence articles which were widely printed. They were full of bright and snappy stories about the gold seekers.

Leaving the neighborhood of the Arctic circle she journeyed south and sailed from San Francisco to Honolulu. From the Hawaiian Islands she sent another series of interesting letters, which have been read by many thousands.

From Honolulu Mrs. Conner started for the Philippines to act as war correspondent for the American Press Association. While off Yokohama the steamer on which she was a passenger encountered a typhoon. During the storm Mrs. Conner was thrown down a companionway and suffered a fracture of the bones of her left arm. She was thousands of miles away from home and friends. A less stout hearted person might have given up in despair, but not she. Accepting gratefully the kind attentions of new friends, she waited a short time to recover from the accident and then sailed for Manila by way of Hongkong.

Mrs. Conner has now been in the Philippines for several weeks, and her letters from there show no trace of gloominess. On the contrary, they are

ELIZA ARCHARD CONNER.

most entertaining and cheerful. She has followed up the movements of the American troops just as closely as any of her male coworkers and has even visited the firing line.

As an evidence of her pluck and determination it may be noted that her correspondence work is all done on her typewriter with one hand. Her left arm is still practically useless on account of the fracture, but the surgeons have told her that if she continues to exercise it a little every day she may eventually recover the use of this member. Although this regimen is a most painful one to follow, Mrs. Conner is sticking to it and expects to come back as sound as ever.

After finishing her work in Manila Mrs. Conner contemplates continuing her journey around the world, carrying her typewriter along with her. She may spend some time in China and Russia before she returns.

The career of this plucky woman war correspondent is a most interesting one. She was one of the pioneer women in journalism and has filled almost every position from reporter to editorial writer. She was born on a farm near Cincinnati, and her first newspaper work was done on the Cincinnati Commercial under Murat Halstead. In 1884 she went to New York and a year later became connected with the American Press Association as chief editorial writer.

Early in its career she became an active member of Sorosis, the "Mother of Woman's Clubs." In a report of a Sorosis debate several years ago the New York Sun said:

"When Eliza Archard Conner speaks in Sorosis, the women usually go home with something to think about. The slight, energetic woman, with the short gray hair and soft, clear voice, does not deal in platitudes, quotations nor encyclopedical data. She is a free lance and strikes out straight from the shoulder, regardless of what anybody thinks about it."

In carrying her typewriter around the world, penetrating into the gold regions and visiting the firing line in the Philippines she has lived up to her own belief.

## BOUNDARY LINE IS FIXED.

Modus Vivendi Over Alaska Line Practically Agreed To.  
London, June 20.—The officials of the colonial office were shown the dispatch from Washington saying that Canada had served notice on Great Britain that she must choose between the United States and her North American dominion in the settlement of the Alaskan boundary dispute. They declared that the story is wrong, both in substance and fact, and that it can be further reaffirmed that modus vivendi was reached early last week, as cabled at the time. The arrangement, which is a verbal one, deals with the question on broad lines. One or two minor details are still under discussion, and when they are settled a final arrangement will be drawn up. Generally speaking, it may be said that the boundary agreed upon follows the summits of the White and Chilkoot passes.

## AN OLD MAP OF PALESTINE.

Valuable Find Made in the British Museum.  
A map that is destined to prove of practical benefit to Bible students and scholars generally was recently discovered hidden in the midst of a lot of dusty manuscripts found in the British Museum. The map shows a plan of Jerusalem made in the seventh century and contains as well the location of every important place in Palestine. The drawings were made by Marino Sanudo, the elder, a Venetian nobleman, who made five journeys to the holy land to perfect his design. His aim was to arouse the Christians of Europe to the importance of Palestine and to urge them to another crusade against the Moslem invaders who had captured Jerusalem in 636, under the command of Khalif Omar. The old map is carefully drawn to correspond to some scale of measurement which the discoverers have not yet been able to determine. Palestine is divided into eighty-one equal spaces in length and twenty-three in width. Many of the identifications of the historic spots of sacred and profane history, the scenes of various battles and the tombs of the prophets and kings, for instance, are better placed in the Italian map than in more modern plans of the holy land. The map, of course, is some hundreds of years removed from the actual time of the Savior's life upon earth, but it is nearer the destruction of Jerusalem by some 1,200 years than the world of today. Even the latest books issued on Palestine have very vague knowledge of the actual sites of the holy places, so that the map of the old Italian is destined to furnish light for a subject that is seen at present only through a glass darkly.

## Trained Rats.

A large London meat house, which had suffered severe loss through the devastations committed by rats, hit upon a novel scheme to abate the nuisance. A regular system of kindness was practiced upon the rodents. Food of their taste was left for them at regular intervals. It was given them to understand that the management considered it a great pleasure to have them about the premises. Also felicitous were banished from the warehouse. At the end of six months the rats became quite tame and would eat out of the butcher's hands. The dainty meats reserved for larger animals were thenceforth left untouched, rodent notions of honor being exceedingly strict. With the result that although the rats are daily on the increase, with no limit in sight, the firm is many pounds ahead, and on the road to prosperity.

## OF LOCAL INTEREST.

### Some People We Know and We Will Profit By Hearing About Them.

This is a purely local event. It took place in Janesville. Not in Buffalo or New York. You are asked to investigate it. Assured to believe a citizens word. To confirm a citizens statement. Any article that is indorsed at home. That obtains resident advocates, is more worthy of confidence. Than a far off foreign article. Testified to by unknown people.

Mrs. L. B. Caniff, of 107 Cornelia street, says: "I doctored from time to time for the last eight or ten years for kidney complaint. I felt fair y well as long as I took medicines, but if I left off I immediately became worse. At one time I had such a severe attack that I came near dying. The pain became so severe that it brought on nervous chills, my finger nails turned purple and I never suffered so much in my life. The medicine I took seemed to act as a stimulant while I used it, and I finally recovered in a measure. During the last three years I suffered from attacks of headache, dizziness and backache. It was for these reasons, that on learning about Doan's Kidney Pills, I procured them from the Janesville Co.'s drug store and I can say they are a splendid remedy. The pain in the region of my kidneys was removed in a short time and since completing the treatment I have felt better generally. Doan's Kidney Pills for sale by all dealers. Price 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name Dolan's and take on substitute."

# S. S. S. GOES TO THE BOTTOM.

Promptly Reaches the Seat of all Blood Diseases and Cures the Worst Cases.

In every test made S. S. S. easily demonstrates its superiority over other blood remedies. It matters not how obstinate the case, nor what other treatment or remedies have failed, S. S. S. always promptly reaches and cures any disease where the blood is in any way involved. Everyone who has had experience with blood diseases knows that there are no ailments or troubles so obstinate and difficult to cure. Very few remedies claim offer such incontrovertible evidence of merit. S. S. S. is not merely a tonic—it is a cure! It goes down to the very seat of all blood diseases, and gets at it, like other remedies, dry up the poison and hide it from view temporarily, trace of taint, and rids the system of it forever.

Mrs. T. W. Lee, Montgomery, Ala., writes: "Some years ago I was inoculated with poison by a nurse who infected my babe with blood taint. I was covered with sores and ulcers from head to foot, and in my great extremity I prayed to die. Several prominent physicians treated me, but all to no purpose. The mercury and potash which they gave me seemed to add fuel to the awful flame which was devouring me. I was advised by friends who had seen wonderful cures made by it, to try Swift's Specific. I improved from the start, as the medicine seemed to go direct to the cause of the trouble and force the poison out. Twenty bottles cured me completely." Swift's Specific—

## LATE NEWS BY TELEGRAPH.

## JOUBERT PLANS CAMPAIGN.

Commander-in-Chief of the Boers Is Ready for War.

## WILL MARCH ON KIMBERLEY.

He Expects to Capture That Important Center at Once and Go On to Cape Town—Dutch Settlers in South Africa Will Join Him.

London, June 20.—The St. James Gazette claims to have received from an absolutely reliable source at Pretoria, capital of the Transvaal, the plan of campaign which will be followed by Gen. Joubert, commander in chief of the boers, in the event of war between the Transvaal and Great Britain.

Gen. Joubert's force, it appears, will consist of 20,000 men, armed with Mauser rifles, in addition to forty-six quick-firing guns and 1,000 artillerymen, most of them drawn from the German and Dutch armies.

With these troops and help expected from the Orange Free State, Joubert expects to take the offensive immediately after the declaration of war, enter the Orange Free State and march on Kimberley, the British diamond-mining center in West Griqualand, which forms four of the seventy divisions of Cape Colony. Kimberley is about 100 miles northwest of Bloemfontein.

In his march on Kimberley, Joubert will use the railroad as far as available; expects to capture the town with slight loss and blow up De Beer's diamond mine. Simultaneously, it is added, the railroad from Cape Town to Bulawayo will be destroyed by Boer sympathizers, and agents in Cape Colony, who will also destroy the Port Elizabeth-Pretoria line, south of Bloemfontein, to prevent British troops from using it.

Finally, immediately after Kimberley is captured, Gen. Joubert will advance on Cape Town, the capital of Cape Colony, through the western provinces, where the Dutch predominate and are expected to join the Boers. Joubert calculates that he will be master of Cape Town a fortnight after the declaration of war and that he will then be able to dictate terms of peace.

## THE BASEBALL REPORT.

Games Played Yesterday in the Two Leading Leagues.

Chicago opened its series with the eastern top-notchers yesterday and downed the champion Boston in an intensely fought game. The victory advanced the Orphans to a tie for fourth place, St. Louis still keeping pace by defeating the Senators. Baltimore was the club to take a drop, losing a twelve-inning game to Louisville. Brooklyn had little trouble with Cleveland, and by winning pulled a little farther ahead of Boston. The Reds continued their slide, submitting to a shut-out by the Phillies. New York met the same fate at the hands of Pittsburgh, which is closing on Cincinnati. The games:

## MAY BE THE "MONTANA KID."

One of Alleged Bandits Thought to Be the Famous Outlaw.

Fort Yellowstone, Mont., June 20.—Four soldiers from troop H, together with a posse that they met from Garner, have arrived here with three men who are believed to be the bandits who robbed the Union Pacific flyer. The men give their names as Phillips, Roberts and Martin.

Roberts answers fully the description of the man who killed Sheriff Hazen in the battle at West Casper, Wyo. He is thought to be the notorious Montana Kid, with eighteen lives to account for. Very little resistance was made to capture. Since the men were taken in they have held no conversation with each other, evidently a preconcerted plan.

## TO ENFORCE SAMOAN CLAIMS

German Minister Declares the Government's Policy.

## INDEMNITY WILL BE ASKED.

Losses Suffered by the Subjects of the Kaiser Must Be Made Good by the Treaty Powers—Firm Diplomatic Negotiations to Commence.

Berlin, June 20.—In the reichstag Monday the Anglo-German treaty was referred to a committee of twenty-one members.

During the course of the debate Herr Kellermann von Sonnenberg attacked Great Britain's proceedings in Samoa as minister of foreign affairs, Baron von Bulow, replied, saying:

"I have no objection again to define our attitude on the Samoa question. We shall not depart from the stipulations of the Samoa treaty, nor allow others to turn us from our course. We recognize the rights of others while maintaining our own."

The foreign minister also said: "We shall provide for full indemnification of the Germans whose property was destroyed by illegal British or American action."

Von Bulow said that, as was recently stated, Germany's intention was neither to depart from the legal position under the Samoan act nor to allow the government to be forced from it, and consequently, while recognizing the rights of other nations under the act the government would unconditionally assert those of Germany.

All the changes, decisions, and new regulations were dependent on Germany's assent to the principle of unanimity, which was the plank of safety on which Germany had passed through many stormy waters. Meanwhile the commission has assumed, provisionally, the governmental authority on the islands, of which the population has entire confidence in the commission.

### YEARLY CROPS.

Gathered by Gold Diggers in Some Mining Districts.

There are several localities where gold may be said to grow every year, or, in other words, where fresh deposits of the precious metal are to be found annually. One such district is in the Edmonton country, in the Canadian Northwest, where, after the spring floods, from the same banks and "benches" of the Saskatchewan river there are taken every year considerable quantities of gold by a few diggers, who make their living out of the business. But the most conspicuous and interesting case of this sort is to be seen near Ichang, in the province of Hupeh, in China. For many centuries, past each year gold has been washed from the banks of coarse gravel on both sides of the River Han, and in the midst of the auriferous district there is an ancient town called Li-ku-tien, which means "Gold Diggers' Inn." Its inhabitants subdivide the gold-bearing ground among themselves annually, staking out their claims with partitions. They pay no royalty, and appear to earn no more than a bare subsistence; but this may be doubted, as John Chinaman is an adept at "jaying low and sayin' nuffin'." The annual river floods bring down millions of tons of mud and sand from the mountains, and this mud and sand, which is charged with gold, both "fine" and in flakes, is deposited to a

depth of six inches or more on the banks of gravel. It is in the winter that the gold is washed, and it is said that seven men work about 20 tons of the "pay dirt" in a day.

### The Life Plant of Guadeloupe.

There is a strange wild plant in Guadeloupe called the "life plant." If a leaf be broken off and pinned by the stem to the wall of a warm room each of the angles between the curves of the leaf margin soon throws out a number of very white tentacles or roots and soon a tiny new plant begins to sprout, and in the course of a week or two attains a height of two or three inches. When the old leaf shrivels the new plant is cut off and planted. When carefully cultivated the life plant produces curious red and yellow blossoms. While the plant is native only in a warm country, there is no doubt that it could be successfully grown in any greenhouse, and as a plant freak it certainly is as interesting as the everlasting plant of Mexico.

### Cactus as a Sustenance.

Arabs find the cactus to be an extraordinarily useful plant. They find in it food and drink, and also fodder for their cattle and camels. The Arab eats the figs and drinks the abundant supply of juice in the fleshy leaves. The camels chew up eagerly what is left over.
